

Straight Talk Just Ahead

An IT
support
company
that talks
your
language

At TSS we provide a professional IT support service for SME's with 5-250 users. In addition to first class IT support we provide excellent IT strategy. Our philosophy is to give you the straight forward facts – no jargon, no hidden sales agenda – just clear, impartial advice that allows you to make sensible decisions on your IT infrastructure.

As technology evolves the options available to SME's become greater. Solutions previously the preserve of large corporates are attainable at affordable prices by SME's. TSS will guide you through with our continued objective of optimising your network for performance, reliability and security whilst minimising the total cost of ownership.
